Dear John,

RE: AMTRA junior recreation licensing

Honda Australia Rider Training (HART) would be willing to look into providing a training course which would qualify children who know how to ride.

HART would anticipate this to be a competency course, held on the off road area at HART Somerton and covered by Motorcycling Australia licensing, to determine if participants were able to pass a test based on the skills assessed during the motorcycle licensing process in Victoria. HART would also anticipate that this course would be completed on the participants own motorcycle. The cost of this course would be pre-paid by the participant/participant's parent or guardian.

Kind Regards,

Sonja Ronald

(HART Administration Coordinator)
